

# GLASS SHIELD

SOLAR & FADE UV PROTECTION

## GLASSHIELD - THE ULTIMATE IN WINDOW PROTECTION

### Don't Delay Protect Today

Glassshield is a specialised film designed for New Zealand conditions providing a barrier against Damaging Ultra Violet rays. These technically superior films have been supplied by MEP Films who supply the world's most advanced window films.

We offer over 35 types of window films to meet All your solar protection.

### STOP UV Rays

All our window films block an impressive 99% of UV Rays.

### CONTROL Heat

Turn your room that's too hot summer and too cold in winter into a comfortable room. Yes we have films that can keep heat out and keep heat in as needed.

### PROVIDE Privacy

Stop that neighbour looking in, or keep your valuable possessions from prying eyes without ruining your view.

### REDUCE Fading

Read inside for some facts about fading and let our experienced staff explain this complex subject to you.

### CUT Glare

Cut that glare problem on your TV or Computer Screen, or a reflection problem from the sea or your swimming pool.

### IMPROVE Safety.

Most schools in New Zealand have used clear safety films extensively to protect our young. You can do the same in your home as well.

**Residential lifetime warranty.**
